Observations... From Around Town

(BY JAY WHOZIT)

The revival of Mardi Gras in Bay St. Louis, the all-day Carnival celebration sponsored by the Bay High School PTA, on Tuesday, was such a huge success that already plans are being made to make next year's celebration even bigger and better, and folks are still wondering where all the people who jammed the streets and the High School auditorium, came from . . . tomorrow, the 14th is St. Valentine's Day, the day on which hundreds of local males, between the ages of 8 and 18 will walk hundreds of blocks out of their way just so they can pass HER house . . . some folks may disagree—you can depend on that—but, to most of us love is just as important as having a steady job, lower prices and the Marshall Plan; it's funny, but that's the way we're built, and neither h-l nor high water will ever change us . . . it was a swell vacation, however short, but yesterday saw all local school students back at their desks and hard at work. . . . Wednesday of this week was Ash Wednesday and ushered in the Holy Season of Lent, during which time local churches of all denominations will hold special services . . . be sure to attend the Heirloom Tea being sponsored by the Bay-Waveland Garden Club on February 20, 21, 22 at the home of Mrs. Lee W. Seal, 3 to 9 p. m. each day . . . Harold B. Weston has been named to head the St. Stanislaus Sidelines Club for the year 1948 . . . When the Red Cross Drive opens in March, just remember their work during and after the hurricane disaster, and be liberal, in fact more so, so that our quota will be met or passed on the very first day of the drive . . . if you've wondered about the origin of the term "By Hook or By Crook," here it is. In feudal times all forests belonged to the Lord of the Manor. The peasants were not permitted to cut trees, but had permission to secure for heating and cooking what underbrush, limbs, twigs, etc., they could reach "by hook or by crook." What they could cut down with a pruning hook or pull down with a shepherd's crook. This served the useful purpose of keeping tree stands clear of underbrush, dangerous in a fire, and of superfluous and dead limbs . . . more than three thousand students enrolled at Mississippi State College for the second winter semester, which is a record for the school . . . people enjoy good clean sport for their entertainment as evidenced by the swell crowds which turn out regularly to witness the basketball games and boxing matches staged by the local high schools . . . the weather of the past few weeks has been likened to a female in that it can't seem to make up its mind what to do . . . it may be spring weather one day, raining the next, freezing the next, foggy the next and so on down the line, boy will we be glad to see good old spring time . . . the hearing before the senate committee of the bill appropriating \$438,000.00 for the rebuilding of the Beach Road in Hancock County will be had on next Tuesday, February 17th, according to Senator John Kyle of the Finance Committee . . . May we suggest that every contact possible be made . . . It is not going to be an easy fight . . . we think the members of the Legislature would probably be glad to help us, however the old question of setting a precedent may creep into the matter.

Broadus, eighth grade sponsor at Bay High School.

The Carnival was planned and executed by The Krewe of Chicapoula the Carnival organization made up of members of the Parents Teachers Association and the faculty of Bay High.

Those participating in the Carnival included only Primary and Grammar Grade Students, each grade selected the theme for their float and did research work, and were guided in the development by grade mothers and teachers.

Floats were as follows: First and second grades, Mother Goose Land; Third grade, Story Book Land; Fourth, Snow White and the Seven Dwarfs; Fifth Grade, Daniel Boone; Sixth Grade, The Melting Pot; Seventh Grade, Hans Brinker; Eighth Grade, (three floats), King's Float, Rames; Webb School, George Washington; Subscribers: Gulf Chevrolet Co., Trapani's Knock Knock, Bay Ice Co., Knights of Columbus, Mauffray's Dry Good Store, Little Theatre, American Legion, Stevenson's Electric Service.

The line of procession continued from the City Hall to the high school gymnasium where the ball was held. Betty Lou Ellis, captain of the Krewe conducted the ball in the same manner in which the large Carnival balls are conducted. The

dukes and maids entered as the captain called their names and stood in semi-circle and the King entered in his robes of blue and gold with mantle of white trimmed with sequins with matching sequins in his crown and scepter. His pages were Jimmy and Bill Thorn. The pages and trainbearers wore white satin and the regular court capes. The Queen's dress was of white net and satin with white mantle. Her crown and scepter were covered with silver sequins.

"Russia Will Be Converted" Title Of Lecture By John M. Haffert At S. J. A. Today

Sponsored By Sodalists of St. Stanislaus And St. Joseph
Academy—No Admission; Time 1 P. M.

The lecture to be given here by John Mathias Haffert today, Friday, February 13th at 1 P. M. is titled "Russia Will Be Converted." It is based on a promises said to have been made by the Blessed Virgin, in Portugal, in 1917.

The lecture will be held at St. Joseph Academy Auditorium.

Mr. John Haffert has recently returned from Europe where he studied the general attitude towards the possibility of a Third World War and then went to Fatima to interview the only living one of the three children who claims to have seen the Blessed Virgin in 1917. We hear so many confused and conflicting ideas about the situation of the world today and the danger of Communism. God has sent His own Mother to tell us the truth about this. Mr. Haffert will tell us this message.

The sponsors, the Sodalists of St. Stanislaus and St. Joseph Academy pointed out that Mr. Haffert is a well known Catholic author and lecturer, from whose pen have come four books, three of which became "best sellers" in the spiritual field, and who because of his eloquence is often called "The Lay Monsignor Sheen."

Mr. Haffert is also editor of the national Catholic magazine, "The Scapular," which has over 120,000 readers and he is also National Regent of the Scapular Apostolate sponsored by the Carmelite Fathers in New York City, which gave over three million free Scapulars and religious leaflets to service men during the war and hopes to do the same during the next six months for a million Catholics of Europe, in an effort to bolster them with the hope of the "Fatima promise." The benefits of all of Mr. Haffert's lectures, above expenses, go to this charity. There will be a free will contribution box at the door of the auditorium.

"God Of Atom"

To Be Shown
At Baptist Church

A new approach to the atom bomb problem will be presented when the sound-color film "God of the Atom" is shown at 7:00 p. m., Monday (Feb. 23) at the Baptist Church, according to Rev. John T. Dearing, Jr., pastor of the church.

The picture has been produced by Dr. Irwin A. Moon, director of Moody Institute of Science in Los Angeles and noted originator of "Sermons from Science." In the film, actual shots of the Nagasaki and Bikini explosions are featured as well as the only full-color moving pictures ever taken of the giant 184-inch cyclotron at the University of California. Since this exclusive sequence was filmed, concrete walls, and have been built around the cyclotron and the interior has been rendered dangerously radioactive.

In his role as narrator of "God of the Atom," Dr. Moon declares, "Our trouble in the world has never been due to the fact that we've had swords or gun, or gunpowder, or tanks, or airplanes, or even atomic bombs. Take all these things from the world and they will beat each other too death with their bare fists!" The problem is not what man has, but what man is, he says. Larry Johnston, a young physicist who aided in atomic development at Los Alamos and photographed all three wartime bombs as they exploded, also appears in the film with an eyewitness account of his experiences.

"God of the Atom" is second in a series of religious-scientific films produced in the laboratories of Moody Institute of Science, a branch of

Moody Bible Institute in Chicago. It follows the popular "The God of Creation," which was shown last year to more than a million people in churches, schools and civic auditoriums.

The film will be shown by the Rev. C. H. Landers, Moody film representative. No admission charge will be made, but a free-will offering will be taken at the close of the picture to help defray the expenses of the picture. The entire public is urged to attend even though they feel they cannot make any offering.

STANISLAUS-BAY HIGH BOXERS TO MEET

The meeting of the St. Stanislaus and Bay High Boxers on the night of March 1st, is a long step forward in improving better sports relations between the schools. A keen rivalry is a healthy situation, as long as sportsmanship rules, and there is no reason why a continuous sports relationship should not exist between these two schools.

It is to be hoped that the whole city learned a lesson from the happenings at the St. Stanislaus vs. Biloxi Boxing Match last week. A great show of poor sportsmanship was provided the spectators by the Biloxi Coach, and that incident should show everyone how ridiculous we can be.

One or the other of these two grand sets of boys are bound to take a licking, but when a grown person can't cheer the winner and loser and feels that he should take up any legitimate athletic encounter between two 100 lb. boys and turn it into a brawl—well, that person should stay at home.

SOFT BALL FOR THE YOUNGSTERS

Formative plans are in the making for the summer program of softball. This is for youngsters of Hancock County who find the long days of summer give them more time than they know what to do with. The program was started last year under the sponsorship of Bay High. Although the beginning was small and help was not forthcoming, it will be bigger and better this summer. Financial help is not the great need, but several men are needed who are willing to give a little time each afternoon towards this project. How about it men? Call Bay High coach officials if you are interested.

ST. STANISLAUS RINGSTERS TAKE BILLOXI

It's hard to give the score in this boxing match, but the Biloxi Indian was scalped—not a hair left on his head. We might say the Biloxi Coach lost and let it go at that. After raging, bellowing like a bull, and threatening everyone in the S. S. C. gym, he took his boys and went home just after the sixth fight of a seven bout card was started. The local boys showed 100 percent improvement after their loss to G. C. M. A. and were in the process of soundly thrashing Biloxi when the card ended.

THOSE "BUCK PRIVATES" ARE HOME
AGAIN IN A POST WAR GALE OF GLEE!

Screenplay by JOHN GRANT • FREDERIC I. RINALDO • ROBERT LEES
Based on a story by Richard Macaulay and Bradford Ropes • Directed by CHARLES T. BARTON
Produced by ROBERT ARTHUR • A UNIVERSAL-INTERNATIONAL PICTURE

ORTTE THEATER SUNDAY - MONDAY "BUCK PRIVATE COME HOME"

Bud Abbott and Lou Costello

For the many Abbott and Costello fans who have followed the escapades of the two comedians through their weekly radio program and numerous motion pictures, "Buck Privates Come Home" is all they desire in the way of slapstick comedy, rapid-fire gags and all around comedy.

For the other theatre-goers who are only slightly acquainted with the comedy pair, this will be a delightful surprise, as it is an above average Abbott-Costello film.

The supporting players do much to enliven the comedy sequences. These include Tom Brown as a racing

car designer; Joan Fulton, his fiancée; Nat Pendleton a former Army sergeant and a New York policeman, and six-year-old Beverly Simmons, as "Evelyn" a French war orphan.

As the title indicates, the story is concerned with the two comedians as servicemen on their way home from overseas. Aboard ship inspecting officers find they have smuggled an orphan aboard. As they are discharged from the Army the orphan escapes from immigration officers and meets her foster uncle. From there their experiences take them into a search for a home; escaping the wrath of a local policeman who was their sergeant in the Army; their entry into the automobile racing business, and finally Costello's mad ride in a midget racer.

But the plot is secondary. Of first importance is that "Buck Privates Come Home" is a vehicle in which the stars are given free reign in putting over their comedy routines.

U. S. SENATOR EASTLAND ADDRESSES LEGISLATURE

Upon invitation U. S. Senator James O. Eastland addressed a joint session of the Legislature last Thursday afternoon. The Senator spoke for an hour and 15 minutes before the joint assembly in the House of Representatives. The assembly hall and galleries were crowded with interested spectators who indicated their endorsement with heavy applause.

Commenting on Governor Wright's recent statement, the senator said the Chief Executive "has done the South a great service in taking the stand he has for the preservation of our social institutions, or way of life and the sovereignty of states from encroachment by the Federal Government."

Senator Eastland did not suggest party bolt, but he said the South has had little voice in national elections since the abolition of the two-thirds rule. He said the answer to the fight "in which our backs are to the wall" is in the "electoral votes. He suggested that by withholding the electoral votes, the South might force the election of the president into the National House of Representatives, and thereby "a Southerner could win the presidency."

Senator Eastland said the FEPC, anti-lynch and anti-poll tax fights are nothing more than attempts to break down segregation, not only in the South, but in the North, where "There is no legal but practiced segregation." He said that Walter White, leader of the N. A. A. C. P. in Washington, "has more power in Government than all the Southern States combined."

GOVERNOR SIGNS FIVE BILLS

Monday, Mississippi lawmakers started on the fifth week since the legislature convened January 6. During the past four weeks 258 bills were introduced in the House and referred to committees, while 153 bills were introduced in the Senate, making 411 bills presented in both assemblies during the four-week period. During that time the solons passed only five measures actually signed into law by the Governor. They were:

SENATE BILL NO. 10—A \$5,000 appropriation to the license tag commission for purchase of motor vehicle license tags during the next six months, ending June 30.

House Bill No. 1—A \$675,000 appropriation to finance mileage, salaries and contingent funds of the two houses.

House Bill 11—A re-appropriation of \$1,183,706 26 for state aid to school building and repair work in the public school system. This represented the unused portion of the \$3,000,000 appropriation of the last session.

House Bill No. 12—Re-appropriation of \$3,000,000 plus an additional \$870,000 for the state office building authorized at the 1946 session.

House Bill No. 13—Re-appropriation of \$100,000 plus an additional \$404,500 for a hospital at the state penitentiary.

Other bills passed in the two houses are either being held on motions to reconsider or for other reasons.

Immediately following Senator Eastland's address before the state legislature Thursday afternoon, the House unanimously adopted a resolution
